

Green Garden Township Assessor's for review at the September 11, 2023 Township meeting
Jane Bushong, Certified Illinois Assessment Officer
Assessor, Green Garden Township

The resident response to the quadrennial 10.42% increase has been immense!

Hundreds of inquiries have been received.

Each inquiry takes a considerable amount of time to respond and manage.

Although the Assessor has been working 7 days per week since the first week in August, many inquiries are still pending.

Additionally, Board of Review Appeals are coming in at a rate far higher than in past years.

Added costs will be incurred this year in order to get through the appeal season.

As discussed, many times in the past, the majority of these inquiries and these appeals are due to the inequities in Green Garden Township. It is impossible for one person to keep up all the assessment needs and demands of this rapidly growing township.

Additional assessment details will be available after appeal season.
